COURSEWORK

B.TECH

Machine Learning

Deep Learning

Data Structures and Algorithms

Software Engineering

Cloud Computing

Web Development

Computer Networks

Mobile Application Development

CERTIFICATIONS

Az-204: Azure Developer Associate

SKILLS

PROGRAMMING LANGUAGES

• C++ • C# • NSIS • Python

FRAMEWORKS

• DotNet Core • FastAPI • Flask • Django

TOOLS

• Github • Azure • PowerAutomate •

Visual Studio • VS Code

EXPERIENCE

OPTIMUS INFORMATION | SOFTWARE ENGINEERING INTERN

Oct 2024 - June 2025 | Noida, India | On-Site

- Trained on SQL, C#, Rest API, Dotnet Core.
- Azure services:- AppService, Azure Container instance, Azure Functions, Blob Storage, Azure SQL DB, Cosmos DB, AD, Key vault, Application Insights.
- Project: HR & Talent Requisition Portal
 - Microservices-based architecture.
 - Built REST APIs for candidate management and skill set tracking.
 - Developed the notification service.
 - Contributed to the design and implementation of the database schema.

OPTIMUS INFORMATION | SOFTWARE ENGINEERING TRAINEE

July 2025 – Present | Noida, India | On-Site

- **Legacy App Modernization [Client Project]:**
 - Migrated a legacy VB6 application to the cloud using Blazor and .NET Core.
 - Participated in database schema redesign and authored DB transformation and rollover scripts.
 - Integrated Azure AD-based authentication and authorization mechanisms.
 - Built UI using DevExpress components in Blazor; conducted manual testing and resolved bug tickets.
- **SOW Automation [Internal Project]:**
 - Automated invoice creation workflows using Power Automate.
 - Internal tool to increase the efficiency and productivity of PMO team.
- **Code Review Automation (MCP Server) [Internal Project]:**
 - Developed a tool to auto-review GitHub pull requests and post suggestions as comments.
 - Connected the tool with Microsoft Teams using Copilot Studio for seamless interaction.
- **Installer Creation [Client Project]:**
 - Implemented installer creation using NSIS, replacing older Inno Setup (ISS) scripts.
 - Delivered clean, reliable installers for production-ready applications.

PERSONAL PROJECTS

OBSCENE CONTENT BLOCKER Feb 2024

Video | Github
